NEGMC Club News

The fall has been very busy for NEGMC. In addition to attending national and local shows, NEGMC held its 46th annual regional show in Maggie Valley. We have also continued to host our monthly club meetings and outings.

To kick off the fall, NEGMC was well represented at the MCA Grand National show held in Fredericksburg, VA over Labor Day weekend. It was a great show with over 450 cars.

Our September club meeting was held at Sparky's Machines in Loganville. After the meeting Chris Agee hosted the club for a pizza lunch at his shop just down the street. We got to see several nicely restored cars and works in progress.

The club had a great turnout at the Chip Foose Bash held at **YEARONE**. The club was able to take a nice group photo with Chip and several of our Mustangs!

We then headed off to Maggie Valley on the first Saturday in October. It was another successful regional show with 180 cars attending and we received many donations for our Charities.

MCA Grand National Winners

In the Occasionally Driven class, Kenny Shoufler won Gold again with his 2004 Mach 1.

Rick Hayslip added another Gold with his 1997 Saleen S281Cobra. Rick earned his 21st point for the S281 and will receive his Grille Medallion at his next MCA show!

In the Concours Driven class, James Price won Gold with his 65 GT K Code Fastback.

This car is currently undergoing a full restoration at Chris Agee Resto-Racing in preparation to transitioning to MCA Concours Division I next season.

PJ Weber	Nebraska
Randy Weldon	Texas

NEGMC earned the MCA President's award for 2018. The award was presented to the club at the MCA Grand National Show. This award is earned by Club members participating at our regional and national events. The award is on display at Jacky Jones Ford.

MCA 2020 National Shows

Tucson, AZ	March 26
Eureka Springs, AR	May 27
Buffalo, NY	July 31
Melbourne, FL	Sept 4

Member Spotlight

Ryan Swearengin

Ryan is the youth coordinator for NEGMC. He recruits and provides support to our younger members and was featured in the July edition of Mustang times. Ryan has been very active in the club and will earn the President's award for 2019. Below is his story.

For as long as I can remember, I've had a love for Mustangs, but as a Junior in high school most people don't expect me to be lucky enough to have one I can call my own. When my dad was my age, he had a 1981 LC Coupe, and then later had a 2000 GT, so maybe it's just in my blood.

When I was old enough to start driving, I spent two years studying and obsessing over Mustangs. My parents knew that I had a love for the car, but they had differing opinions on whether or not I should be able to have one. My dad, having owned one when he was my age, sympathized with me but both he and my mom were understandably concerned about how a 17 year old would handle the power of a muscle car.

Eventually, after many long discussions and a PowerPoint presentation even being made on why I should have one, they decided that if I even were to get one, then it would be an EcoBoost, because they thought a GT to be too powerful. I had absolutely no complaints, because it meant that I had a chance at getting a Mustang of my own. I spent months looking at both new and used Mustangs for sale, but couldn't quite find just the right one my parents and I could agree on.

On my 17th birthday, my parents took me up to the local dealership to look at Mustangs, because they considered me responsible enough to get my own. On the way to the dealership, I couldn't stop fidgeting for a single second with the excitement.

It was impossible to warp my head around the idea that after years of loving Mustangs, I could be lucky enough to have my own by the end of the day.

We got to the dealership and sitting right on the front was a beautiful bright Competition Orange 2016 EcoBoost. I like to say it was love at first sight because I knew that it was the car for me. We made a beeline for it and it was even better up close. It was perfect.

The previous owner had installed custom heated leather seats with orange stitching to match the exterior along with tinting the windows and ceramic coating over the paint. In addition, it was equipped with a great performance package. It was the car of my dreams and soon enough my dream came true. On the best birthday I've had to date, I went home with my very own Mustang. I've had the Mustang for 5 months now and I drive it everywhere.

When I first got my Mustang, my neighbor Steve Harrison, who is the president of the Northeast Georgia Mustang Club, came and introduced me to the club. I didn't know what to really expect having never been in an actual car club before, but I was eager to join. Steve was kind enough to sponsor me as a member and told me that I would be the head of the Youth Mentoring Program since I was technically the only person under 21 in the club.

The Youth Mentoring Program of the Northeast Georgia Mustang Club is a great program where older members of the club take younger or newer members of the club and teach them about Mustangs, such as the history of the car, how they're made or the differences between each model and build.

Soon after I joined the club, my first ever car show was coming up at **YEARONE** Muscle Car Parts. I entered my car in the competition and while I didn't win anything, I learned a lot about the club and met a lot of interesting people.

I even ran into the couple who owned my car before I did, which was a really cool experience. They had owned EcoBoost for two years before selling it to buy a 2019 Roush Mustang.

At the car show and through the Youth Mentoring Program, I was immediately put to work helping with the show. I was put in charge of helping direct traffic and parking cars, which was very interesting and fun to me because I got to see all of the Mustangs that came in. The show was a huge success and lots of fun with over 120 cars in competition.

The next phase of my training was installing rocker panel stripes on my car. Several of the seasoned members taught, helped and instructed me how to install the strips. I did my research on line and even watched the installation video several times. I was so impressed at how much I learned and how well the installation went.

Ever since joining the Northeast Georgia Mustang Club I have had nothing but great experiences. I love being surrounded by people who share a common interest with me as well as being able to learn more about my favorite car, the Mustang.

Ryan Volunteered at both NEGMC regional shows this year.
